1.Download GEIO APP

Please use your mobile phone to scan the QR code below and download the APP directly; or you can install the GEIO APP from the software store.

GEIO APP download (iOS)

GEIO APP download (Android)

·GEIO APP requires ios 8.0 system or above or Android 5.0 system or above.

2. Charge

Please use the USB charging cable inside the package to charge the battery. Using the paired USB charge adapter as well. When the charging process starts, the red light will flash; and the red light will turn on for a long time when the battery is fully charged.

Fully charged: It takes 2 hours and 15 minutes (5V2A adapter recommended).

Life time: approximately 40 minutes.

3. Prepare GEIO

1. After removing the GEIO and battery, put the battery inside the battery compartment of the GEIO.
 2. Long press the triangle power switch above the backpack of GEIO. GEIO will be switch on with the power light.
-

4. Connect to GEIO

Follow these steps to connect your mobile device to geio:

1. Make sure that your geio is switched on.
- 2 Find the Wi-Fi settings on your phone.
3. the Wi-Fi signal of GEIO will be named as "GEIO-XXXXX" at the first time.
"XXXXX" is the serial number of each machine;
4. Click the Wi-Fi signal of GEIO and then enter the password.
(Initial default password is 12345678)

Note: Wi-Fi name and Wi-Fi password can be modified in the GEIO app.
Wi-Fi control distance is maximum 100 meters.

5. Start the fight

After opening the app and connect GEIO, please select "Battle Mode". Then choose a team (red team or blue team) and enter the basic interface. The left joystick can control GEIO to move forward/back/right/left. The right joystick can control the firing direction of the fort. Click the red point which in the middle of the right stick to shoot.

left joystick

right joystick

Interface Element Description:

Technical specifications

MACHINE

Weight:
730 g (Battery 105 g)

SIZE

180 x 160 x 160 (mm)
Operating Temperature
Range:
0 - 40°C

VISION SYSTEM

Camera resolution
300,000 pixels
Visual Identity Range:
50cm - 2m

BATTERY

Battery Capacity	2000 mAh
Charge	USB Cable
Max Play Time	40 mins

CONNECTION

Method	WIFI
Operating Frequency	5.8 GHz
Max Transmission Distance	100 m

HARNWARE

Turret Angle	Pitch 0- 90° Horizontal 0-160°
Material	ABS, PC, aluminium alloy
Internal Sensor	Infrared Sensors, Magnetic Sensor
LED	LED lights in two parts (legs, back)

Weapon and Score System

Infrared shooting distance	2.5m
Number of Infrared Sensors	4
Position of Infrared Sensors	legs

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Indoor use only. The distance between user and products should be no less than 20cm
